

2009 Distributions

The Tocqueville Funds paid a distribution on 15 December 2009.

The Record Date was 14 December 2009 and Payment Date was 15 December 2009.

Please note that each fund’s share price (NAV) is affected when a distribution is paid. Capital gains and dividend distributions will reduce each fund’s net asset value per share (NAV) by the amount of the distribution on the ex-dividend date. For example, if the fund were to pay a distribution of \$2.00 per share and the fund’s net asset value (NAV) were \$30.00 per share prior to the distribution, on the ex-dividend date, the NAV would be reduced as a result of the distribution by \$2.00 per share to \$28.00. Market activity may also impact the fund’s NAV on the ex-dividend date, so the total change in a fund’s NAV may be more or less than the net distribution.
